

## INDIA COVID-19 EMERGENCY & RECOVERY

**URGENT: India Needs You.**

Your COVID-19 donation will be TRIPLED to meet urgent needs!

Dear Colleagues,

As I write this, a deadly surge of COVID-19 is causing devastation across India. You have likely seen the headlines as the **death toll from this crisis has passed 200,000 and close to 400,000 new cases are being reported every single day**.

The country's healthcare system is overwhelmed.

Oxygen supplies are dangerously low, medical staff lack the resources and protection they need for their frontline work, and **millions more men, women, and children are at risk as this new surge continues to grow** and sweep through Indian communities.

Thankfully, YOU have the power to save lives and I am asking you to use that power right now. ADRA is providing urgent, lifesaving supplies and support to hospitals and clinics in India right now. **But it's not just India. This is a global response to a global pandemic, and your support is critical!**

## SEND URGENT HELP

As our global COVID-19 response continues to expand, we are rapidly escalating our response in India to include:

- **Supplying a critical source of oxygen** by installing an oxygen generation plant at a leading hospital that is now only serving COVID-19 patients.
- **Providing critical personal protective equipment (PPE) to healthcare workers** who risk their lives every day on the frontlines.
- **Promoting preventive measures** in communities and providing other life-saving support to staff in local clinics.

Our COVID-19 Emergency and Recovery response in India and everywhere else is not possible without your support. And right now, due to strategic partnerships and generous donors, every £1 you give becomes £3 to help save more lives!

## GIVE NOW

**You are a vital partner in our fight against COVID-19 around the world.**

Please donate here: <https://app.donorfy.com/donate/C4311R6V76/IndiaCOVIDresponse>

Your generosity will shine a light of hope on those who need it most.

With heartfelt thanks,

Bert Smit  
CEO
