

**College of Health, Medicine, and Life Sciences.**

**Department of Life Sciences.**

**\*Volunteers needed for my research study on: "An exploration of dyslexia from a positive perspective: What factors have led to success in the lived experiences of adults with dyslexia?"**

**\*Are you 18+ and have dyslexia? If yes, I would be honored to hear from you. I am looking for 15 volunteers and I will be recruiting on a first come first served basis.**

### **What is the study about?**

This research study aims to explore dyslexia from a positive perspective and examine the factors that have led to successes in the lived experiences of adults with Dyslexia.

### **What does it involve?**

The interview will take approximately 30 to 45 minutes. These will be conducted via Teams or by telephone. In the interview, you will be asked about your positive and negative experiences with dyslexia including how it may have caused difficulties in your life and how you overcame those difficulties.

Participation is voluntary and it is up to you to decide whether you will take part. You will first be sent participant information sheet via email so

that you are informed about the research and then you will be asked to consent to take part.

**Please also note that this research is in fulfilment of my Master of Science (MSc) in Psychological Sciences (Conversion) course thesis as part of my studies.**

**This research has obtained ethical approval from the college of Health, Medicine and Life Sciences Research Ethics Committee at Brunel University London to run between 3<sup>rd</sup> of August 2023 to 20<sup>th</sup> of September 2023.**

If you wish to participate, please email me, Miss Carolina Nyakila
